

## **Update from the Board of Trustees - July 5, 2024**

On March 13, 2023, the Board of Trustees informed the Fellowship that we decided to remove a substantial number of meetings, all registered by a single person, from the ACA meeting list directory. This difficult decision was in response to numerous significant complaints and evidence of multiple ACA Traditions violations, and we were put on notice of a potential lawsuit due to alleged discriminatory actions.

Subsequently, after some representatives of these meetings requested to appeal the decision, board representatives engaged in discussions with them to clarify the guidelines for listing a meeting on the ACA WSO website directory. We are happy to say that these discussions are complete having clarified the guidelines used for all groups to register an ACA meeting, and, as a result, these meetings can register on the ACA meeting listing directory.
