

## Meeting Listing Page Help Document - June 2025

When you first arrive at the Find a Meeting page you'll be presented with some choices to make regarding what type of meeting you are searching for.

Of the four tabs shown on the screenshot below, the default will be *All Meetings*. But you can also narrow your search by clicking on *Online*, *Telephone*, or *In Person*. In the example, the search is for In Person meetings.

NOTE: The Time Zone will default to where you are currently located, unless you have manually changed this setting.

The screenshot displays a search interface for meetings. At the top, under the heading "Meeting Type (Check one or more)", there are four buttons: "All", "In Person", "Online", and "Telephone". The "In Person" button is selected. Below this, there are two dropdown menus: "Time Zone" (set to "Europe/London") and "Select Language - Optional" (set to "Select"). A note states "Results will be displayed in the time zone above." Below the dropdowns, a button labeled "Additional Search Options" with a downward arrow is circled in orange. At the bottom, there are two buttons: "Find A Meeting" (in a red box) and "Clear Form" (in a white box).

Besides general choices already shown on your screen, you can also click the *Additional Search Options* button to narrow down your choices.

Results will be displayed in the time zone above.

[Additional Search Options ^](#)

<b>Select Country - Optional</b> <input type="text" value="Select"/>	<b>Select State - Optional</b> <input type="text" value="Select"/>
<b>Zip, Postal Code, City, etc. - Optional</b> <input type="text"/>	<b>Distance Radius (miles)</b> <input type="text" value="30"/>
